Greeting,

I'd like the opportunity to join your team at Action Now. As a software Developer with many years of experience and the creator of several web applications, and Mobile applications that went state-wide in the various industries, I believe I have the skills and spirit that can synchronize with your company.

I consider myself a fairly innovative and creative thinker, creating new and exciting scripts both professionally and in my spare time, and my efforts have seen success across various projects in the companies.

In addition to my software expertise, I understand the importance of selling the product as well as developing it, especially when it's using creative or cutting-edge technology that hasn't yet gained acceptance in the general market.

I'd love the opportunity for an interview so we can enjoy an in-depth discussion about Action Now and what I could contribute to its success.

Thank you for your consideration, and I hope to hear from you soon.

With regards,

Imran Hossain

Full-Stack Software Developer
